

Wanna know a statistic? Every day 92% of email sent to the Idaho Supreme Court is SPAM. That means since January 1<sup>st</sup> over 430,000 emails haven't made it to your Inbox because it has been blocked by our SPAM detection systems.

But every so often one or two may just squeak through and make it way to your inbox.

Now you can help us block even more annoying emails from reaching your inbox. There is now a **'Report As Spam' button** located on the top of your Outlook ribbon. When one of those pesky emails finds its way to you, put it in its place by clicking that button. Easy as that!

*\* Please note this feature is not available in Outlook Web Access (OWA) or on your mobile device.*
